

CANDY

Try this candy-themed tree in a family room, great room, or at Grandma and Granddad's house.

The classic assortment of Christmas lollipops and glossy ribbon candies (hammondscandies.com) dangle next to sturdy handmade candy canes (laughingmoonchocolates.com). The red-and-white color theme is continued throughout with ball ornaments and shiny glass garland.

sweet stockings

Candy-inspired red-and-white stockings from Karen Pfaller are hung by the fire, and peppermint-striped candles glow atop the mantel.

lights, ribbon, candy!

Sugar-plum faeries never had it so good. Tiny lights illuminate old-fashioned sweets that double as delicious "bows" on gifts that are wrapped in vintage-style ribbon and wrapping paper. In sweet refrain, the tree is topped with a Christmas banner.
